

FOR IMMEDIATE RELEASE

Key Capital Corporation enters into US\$11.5 Million Loan Facility Agreement with GeoGlobal Resources, Inc.

SCOTTSDALE, ARIZONA, March 18, 2015 – Key Capital Corporation (OTC Pink: KCPC) (“Key Capital” or “the Company”) and GeoGlobal Resources, (OTC Pink: GGLR) (“GeoGlobal”) are pleased to advise that the Companies have entered into a US\$11.5 million definitive Loan Agreement pursuant to the conditions of the Stock Purchase agreement entered into between the parties on August 24, 2014.

Interest of 9.5% will be payable on funds drawn down under the facility and the loan is for a five year term from date of commencement. Draw down on the facility is scheduled to commence within 90 days of GeoGlobal being current with its annual accounts and filings, including all group subsidiaries as well as all group companies being in Good Standing. This latter final outstanding due diligence requirement may still take approximately three to six months as accounts and filings of most of the GeoGlobal group are over two years in arrears with major compliance and filing issues having been negligently disregarded by the former GeoGlobal Chairman/CEO who was dismissed for cause.

Currently further delays are being caused due to the former Chairman/CEO seeking to unlawfully, and with no legitimate board or corporate authority, control the GeoGlobal business interests in India where operations are now greatly enhanced following long overdue settlement of due revenue share through agreement strategized and structured through direct Key Capital initiative. GeoGlobal is also pleased to advise that it has appointed Mr. Prasada Rau Kuna as its Indian Country Manager and Indian Chief Executive Officer and Mr. Kuna is in process of ensuring all operations are legitimized and accountable to the GeoGlobal Board.

ABOUT KEY CAPITAL: Key Capital is focused on building accretive streaming interests in mined commodities and energy production. Through provision of structured financing of mining and energy production projects Key Capital retains life-of-mine interests in the production of mines containing gold, silver, or base metals, or in energy products.
